

Lenovo

Ideapad

Proudly powered by an AMD Ryzen mobile processor with Radeon graphics, the 14" Lenovo IdeaPad Flex 5 offers you excellent all-around performance, graphics and productivity in a flexible device built to be what you need it to be.

Engineered for long-lasting performance, the Lenovo IdeaPad delivers power in a laptop that's perfect for your everyday tasks, with features that you can depend on such as advanced mobile 10th Generation Intel Core processors and all-day battery. Windows 10 brings back the Start Menu from Windows 7 and introduces new features, like the Edge Web browser that lets you markup Web pages on your screen. Touch, tap, glide and make the most of Windows 10. Creates a sleek, modern look with clean lines and provides a rigid but lightweight frame. Connect to a Wireless-AC router for nearly 3x the speed, more capacity and wider coverage than Wireless-N. Backward-compatible with all other Wi-Fi networks and hotspots.

ThinkPad

Designed for professionals working in architecture, design, healthcare, and entertainment media, the 15.6" ThinkPad Laptop from Lenovo offers ISV certification for software that includes AutoCAD, CATIA, Creo, and more. This system is powered by a 2.7 GHz Intel Core i7-10850H six-core processor, which allows you to run multiple applications simultaneously. If you need more power, the system can be overclocked to 5.1 GHz using Intel Turbo Boost 2.0 technology.

The sleek, lightweight, and durable ThinkPad is built for business and ready to deploy.

The ThinkPad keeps you productive, mobile, and connected. Power, performance, and durability. That is what you get from the ThinkPad with an all-day battery plus plenty of storage and memory. With a secure touch fingerprint reader, Dolby Audio Speakers, and legendary ThinkPad support is the perfect ultra-light solution.

Legion

Experience the top AAA games on the Lenovo Legion 5. Inside the clean, minimalist chassis of the Legion 5 available in Phantom Blue is everything you will ever need to compete on equal footing with the pros, including the latest generation AMD Ryzen processor and NVIDIA GeForce RTX graphics for performance that is AI-optimized by the Legion AI Engine, powering the revolutionary Legion Coldfront 3.0 and Q Control. Excel across every AAA title with a 15 inch FHD display at up to 165 Hz refresh rate, featuring 100 percent sRGB colour accuracy. Plus, relish the new Nahimic 3D audio and the legendary Legion TrueStrike keyboard so you can strike with pinpoint precision. Enjoy purpose-built performance on the Legion 5, available in Phantom Blue.

Coldfront 3.0 and Q Control. Excel across every AAA title with a 17-inch FHD display at up to 144 Hz refresh rate, featuring 72 percent NTSC colour accuracy and support for Dolby Vision, and the legendary Legion TrueStrike keyboard so you can strike with pinpoint precision.

Thinkbook

Designed for professionals on the go, the Lenovo ThinkBook is only 17.9mm (0.7") thin, so it's easy to slip it into a backpack or under your arm. With a 10th Gen Intel Core i5-1035G1 processor and Windows 10 Pro, this work laptop enables you to tackle any task, anywhere.

Think Center

Powered by the Intel Core i5-4570 Quad-Core processor with a speed of 3.20GHz, this desktop can easily respond to various tasks, regardless of their intensity level. It supplies the right amount of power to your system to be able to withstand exhaustive use and major breakdowns. It is aided by 32GB of memory to support all of your multitasking activities. These features combined together help you make the most out of everything you do

Idea Center

Inspired by the great outdoors, the eye-catching Lenovo IdeaCentre AIO 5i 27" takes its cue from the mighty Cypress tree. Perfectly balanced and durable without sacrificing an ounce of performance with 10th generation Intel Core i5 processor, this all-in-one PC represents an appealing addition to any home.

Flex

Proudly powered by an AMD Ryzen mobile processor with Radeon graphics, the 14" Lenovo IdeaPad Flex 5 offers you excellent all-around performance, graphics and productivity in a flexible device built to be what you need it to be.

The Flex 5 offers more ways to connect and immerse yourself with a powerful combination of performance, connectivity, and entertainment. Enjoy the 11th Gen Intel Core processor along with crisp visuals on the FHD display and rich sound of user-facing Dolby Audio speakers. A narrow bezel on four sides gives you more viewing area and less clutter to interfere with the task at hand, whether that's at work or play. Get the most out of your screen with IPS panel technology and up to Full High-Definition screens on the Flex 5. The IdeaPad Flex 5i is designed for you to keep your ideas flowing anywhere and anytime with the ability to use it in Laptop mode for everyday computing, Tent mode for sharing, Stand mode for binge-watching, or Tablet mode for more intuitive interaction.
