

Computer Upgrades

Do you need upgrades to your computer for any reason?

That we can help with as well.

If we don't have the part on the shelf we can usually, have it by the next morning.

Whether you just want us to supply the parts like maybe a new power supply or a better CPU or you want more Ram or a larger, or an extra Hard Drive. We can help with everything.

We can if required install the new upgrade parts for you and install the new drivers, and upgrade your Bios if required, to the requirements for the new parts.

Come and speak to us about your requirements, We can support and help you with your requirements.
