

Custom Builds

Are you building a New Computer?

Or would you like a new computer built to your specifications?

We have lots of parts on the shelf for your new build. If you require parts, that we don't have in stock, We can usually have them by the next morning if required so you may continue or finish your build.

We could even build the computer for you to your specifications and get it up and running if you like.

Come and talk to us and we will do our best to accommodate your needs or requirements.
